

TOA Extraordinary General Meeting Minutes

4 October 2026

Date: 4 October 2026 at 10:45 AM

Mode: In-person and Virtual

Attendance:

- 26 Owners attended in person
- 5 Owners attended virtually
- TOA represented by the President, Secretary, Joint Secretary, Treasurer, and EC Members

1 Welcome and Opening

The President welcomed all owners and thanked them for participating in the EGM.

Following the welcome note, the meeting was handed over to the Secretary to take the members through the agenda and key discussion points.

2 Association Governance and Structure

The Secretary introduced the governance and association structure agenda and invited an EC Member to explain the current TOA structure, including the vacant Vice President position.

The Secretary provided additional context regarding the resignation of the previous Vice President, and invited nominations/expressions of interest from the participating owners.

As no other nominations were received during the meeting, the Secretary proposed the elevation of the current EC Member, Mr. Ramarathinam from C203, to the position of Vice President.

No objections were raised by the participants or TOA representatives present. Accordingly:

- Mr. Ramarathinam was appointed as Vice President of TOA.
- Consequent to his movement to the Vice President position, an EC Member position became vacant.
- The Secretary proposed Mrs. Usha Viswanathan from C304 for the vacant EC Member position.
- The proposal was accepted without objection by the participants and TOA representatives present, and Mrs. Usha Viswanathan was appointed as an EC Member.

3 Electricity Load Optimization and Solar Energy

The Secretary provided an update on the ongoing work relating to electricity load optimization and TOA's exploration of opportunities for solar energy utilization within the community.

Owners/residents who have relevant contacts, technical expertise, vendor recommendations, or suggestions were encouraged to share the details with TOA for further evaluation.

4 Sinking Fund Update and Utilization

The Committee presented an update on the use and current position of the Sinking Fund.

A portion of the fund has been used for community requirements, including:

- Civil works associated with the GI Smart integration
- EB arrears payments

- Payments to SES vendor towards work relating to the ladies' and gents' common toilets

The biometric installation for Block E has already been completed. The meeting approved the use of the Sinking Fund to cover the cost of biometric installations for Blocks A, B, and C.

The Association will continue to track and report the fund's available balance through its regular financial records.

5 Water Crisis Consumption and Additional Water Charges

A detailed discussion was held regarding the ongoing water crisis, increased water consumption/costs, and the significant increase in water procurement expenses.

Various views and suggestions were shared by the owners during the discussion.

After deliberation, the in-person participants agreed to introduce an additional water charge of ₹500 per flat per month, effective from October 2026.

Agreed Water Charge Structure

- Monthly water charge: ₹500 per flat
- Effective from: October 2026
- Billing frequency: Quarterly
- October to December 2026: ₹1,500 per flat
 - The water charge will be invoiced separately from the regular maintenance charges. Non-payment of the water charge will be treated as a CAM payment default, and the owner concerned will be classified as a defaulter in accordance with the Association's applicable rules.
 - Billing/collection will follow the quarterly maintenance billing cycle.

Accordingly, owners will receive an additional invoice for ₹1,500 for the October to December 2026 quarter.

6 Review of Water Charges

TOA will continue to monitor:

- Water consumption
- Water availability
- Tanker requirements
- Procurement costs
- Overall water expenditure

The situation will be reviewed again by December 2026.

Subject to prevailing water consumption, availability, and cost conditions, the additional water charges will continue into the subsequent quarter unless revised.

TOA will also continue to provide monthly updates to owners regarding the water situation and related costs.

7 Previous Sinking Fund Use for Water Expenses

TOA clarified that the Sinking Fund had been used for water-related expenses during the recent period.

A separate owner-voting process will be initiated to determine whether:

1. Owners should contribute retrospectively to replenish the amount used from the Sinking Fund for water expenses; or

2. No retrospective collection should be made, allowing the Sinking Fund to remain at its current balance. This matter is therefore pending owner voting and is not considered approved through this EGM discussion.

8 Ongoing Vendor and ERL Works

TOA provided an update regarding various ongoing activities and works being coordinated with the respective vendors and ERL teams.

The progress of the outstanding activities will continue to be monitored, and relevant status updates will be shared with owners.

9 ERL Pending Works and NOC

TOA clarified its approach regarding the pending works and the issuance of the NOC to ERL.

TOA will circulate communication to all owners detailing:

- Open/pending items
- Current completion status
- Commitments provided by ERL
- Items requiring closure

Based on this information, owners can take an informed decision regarding sharing their individual NOC/consent with the Association.

TOA's final NOC handover will remain subject to satisfactory completion of the committed/pending works by the ERL team.

10 GI Smart Integration Vehicle Details

An update was provided regarding the ongoing GI Smart integration.

All residents are requested to verify their vehicle information and ensure that the details available are accurate and complete.

If any information is:

- Incorrect
- Missing
- Required to be updated, or
- A new vehicle needs to be added

residents should send an email to the TOA email address, clearly mentioning:

- Flat number
- Vehicle number
- Relevant vehicle details
- Details of the required change/addition

Residents are requested to prioritize this activity, as the GI Smart integration work is currently in progress.

11 Legal Matters

TOA informed the participants that discussions are ongoing with the Association's lawyer relating to various matters, including:

- Approach towards maintenance/payment defaulters
- Ongoing court/legal matters
- Enforceability and binding obligations associated with the ERL NOC and related agreements
- Matters concerning the utilization of the pathway/access area in connection with ERL's D Block construction

Further action will be taken based on legal advice and the Association's applicable governance requirements.

12 New TOA Services Rental and Sales Support

TOA also presented the newly introduced Rental & Sales Support services.

The scope of assistance/support to be provided by TOA under this service was explained to the participants, including the areas that will and will not fall within the Association's responsibility.

Further details relating to the service/process will be communicated separately where required.

Key Decisions and Action Summary

#	Decision / Action	Status
1	Mr. Ramarathinam appointed as Vice President	Approved
2	Mrs. Usha Viswanathan appointed as EC Member	Approved
3	Additional water charge of ₹500 per flat/month from Oct 2026	Agreed at EGM
4	Separate quarterly water invoice of ₹1,500 for Oct-Dec 2026	To be implemented
5	Water situation and charges to be reviewed by Dec 2026	Action - TOA
6	Monthly water consumption/cost updates to owners	Action - TOA
7	Retrospective owner contributions to replenish the Sinking Fund used for non-capital expenses	Pending owner voting
8	Biometric installations for Blocks A, B, and C to be funded from the Sinking Fund	Approved
9	Electricity load optimization & solar opportunities	Under evaluation
10	Residents to validate/update GI Smart vehicle information	Priority Action - Residents
11	ERL open points/completion status to be circulated to owners	Action - TOA
12	Final TOA NOC subject to satisfactory closure of committed ERL works	Pending
13	Defaulters, court matters, ERL agreements/NOC and D Block pathway matters	Under legal review
14	Rental & Sales Support services	Introduced / ongoing

Closing Note

TOA thanked all owners who participated in person or virtually and contributed their views and suggestions during the EGM.

The Association appreciates the constructive participation of residents and will continue to provide updates on the agreed action items, ongoing works, water situation, ERL commitments, GI Smart integration, and other community matters.
